

LATITUDE MEDTECH LLC

Precision Consulting for MedTech & Pharma

Steven Tran · Managing Partner & CEO

San Diego, CA · latitudemedtech.com · Alpha Phase · 2026

The \$7B Problem Nobody Solves Well

- 6,000+ medical device companies in the US; fewer than 12% have dedicated in-house RA/QA staff
- Average FDA 510(k) clearance: 177 days for the least complex devices; PMA averages 3–5 years
- Big 4 consultancies charge \$350–\$600/hr with 6-month minimums — inaccessible to Series A/B startups
- Legacy AI tools (Lilli, GENE) answer queries; they do not reason, plan, or execute alongside the client

Your AI Consulting Backbone

- Athena is Latitude's proprietary AI system — not a chatbot, an autonomous reasoning engine
- Voice-activated briefings: speak a regulatory question, receive a structured analysis in seconds
- Knowledge base: 50-year regulatory history — FDA enforcement actions back to the 1976 Medical Device Act, full ISO 13485 and EU MDR corpus
- Interactive reasoning vs. search: Athena synthesizes, plans, and executes — it does not return links
- vs. Lilli (McKinsey): client-side deployment, no vendor lock-in, auditable reasoning chain
- vs. GENE (Deloitte): transparent outputs, MedTech-specific corpus, voice-first interface

Coaching Line — Active

From QA Associate to Director in 18 Months

Regulatory Career Roadmap

Personalized 12-month plan: skills gap analysis, target role mapping, certification sequencing (RAPS RAC, ASQ CQE/CBA). Benchmarked to SoCal device market salaries.

Interview & Positioning

510(k) and EU MDR technical interview prep; regulatory portfolio review; compensation benchmarking for roles at Edwards, Masimo, Dexcom, and SoCal startups.

Strategic Coaching

Monthly 1:1 sessions with Athena-generated progress reports; job search campaign management; offer negotiation strategy.

Consulting Line — Coming Q4 2026

FDA · EU MDR · ISO 13485 · MDSAP

Regulatory Submissions

- 510(k) & De Novo strategy
- PMA submission support
- Design controls (21 CFR Part 820)
- CAPA system build & training

Quality Systems

- QMS gap assessments (ISO 13485)
- EU MDR Article 10 compliance
- MDSAP audit preparation
- Post-market surveillance programs

Gated pending non-compete clearance + RAC credential. Pipeline intake is open — contact to join the waitlist.

We Out-Execute at 1/10th the Cost

	Legacy Big 4	AI Tools (Lilli/GENE)	Latitude MedTech
Engagement minimum	6 months	Annual subscription	Project-scoped
Pricing	\$350–\$600/hr	\$50k+ per year	Value-based
Reasoning depth	Junior staff	Search-and-retrieve	Senior AI + human
Regulatory depth	Generalist	Generalist	MedTech-specific
Voice interface	No	No	Yes (Athena)
SoCal network	Limited	None	Biocom-embedded

Ideal Client Profile

COACHING LINE

QA / RA Professional

\$95k–\$130k

current comp

- Mid-career (5–10 yrs), targeting Director/VP transition
- Frustrated by slow career velocity at OEM
- SoCal-based, open to AI-enhanced coaching
- Goal: RAC credential + 25%+ comp increase in 18 months

CONSULTING LINE

MedTech Startup (Series A/B)

\$3M–\$15M

raised

- VP Engineering or CEO at Class II device startup
- 18–24 months to 510(k) target clearance
- No in-house regulatory affairs staff
- Needs strategy, not a 6-month consulting commitment

BOTH LINES

MedTech OEM L&D

50–500

person RA/QA teams

- HR/L&D Director at Edwards, Masimo, Dexcom
- Seeking scalable regulatory upskilling programs
- Budget: L&D line item, not consulting project code
- Outcome: faster cert attainment, lower attrition

How We Win Without Ads

*Saturated channels off-limits:
LinkedIn feed ads,
Instagram, YouTube,
Google Ads*

01 CONFERENCE CIRCUIT

Targeted presence at MD&M West (Feb), Biocom Annual (Q1), RAPS Convergence (Oct). Strategy: corridor conversations, not booths. Speaking abstracts submitted 6 months out.

02 PODCAST CIRCUIT

Guest appearances on The Medical Device Podcast (Jon Speer / Greenlight Guru), MedTech Talk, RCFM. Pitch: "AI-native consulting — what it means for your 510(k)."

03 REGULATORY CLINIC

Monthly free 45-min office hours at Biocom San Diego. One specific regulatory question answered live. Upsell rate target: 20% to paid engagement.

04 MEDTECH MERIDIAN

Weekly Substack (target: 500 subscribers by Month 6). Format: one specific regulatory development + what it means for device companies. No AI fluff.

05 FDA DOCKET PARTICIPATION

Submit comments on 2–3 open FDA guidance dockets per year as "Latitude MedTech LLC." Builds public regulatory credibility with zero ad spend.

90 Days to First Revenue

DAY 1–30

LAUNCH

- Biocom membership activated — attend 2 chapter events
- Podcast pitches sent: The Medical Device Podcast + MedTech Talk
- Substack MedTech Meridian: first 4 issues published
- RAPS SoCal Chapter: joined + first meeting attended
- Pipeline: 20 targets identified and emailed

Target: 20 outreach emails sent

DAY 31–60

BUILD

- Regulatory Clinic: first session held at Biocom SD
- Conference: RAPS Convergence abstract submitted
- Podcast: 1 confirmed recording date
- Substack: 200 subscribers
- Pipeline: 5 discovery calls completed

Target: 5 discovery calls

DAY 61–90

CONVERT

- First paid coaching client: onboarded
- Pipeline: 3 consulting waitlist signups
- Podcast: 1 episode live
- Substack: 350 subscribers
- Speaking: 1 Biocom chapter talk confirmed

Target: 1 paid client

Early Proof Points (To Be Captured)

Class II Startup, San Diego

510(k) Strategy

SITUATION

Series A device company, 2 engineers, no in-house RA/QA staff, 18 months to target launch date.

APPROACH

3-month engagement: Athena-driven 510(k) gap analysis, predicate search, regulatory strategy roadmap.

IMPACT

[Outcome to be captured — Q4 2026]

QA Manager to Director

14-Month Coaching

SITUATION

8-year QA professional plateaued at \$102k, targeting Director role at a Tier 1 device OEM.

APPROACH

Latitude coaching program: RAC prep, positioning strategy, technical interview coaching.

IMPACT

[Outcome to be captured]

ISO 13485 QMS Build

60-Day Engagement

SITUATION

Medical device startup needed QMS for Notified Body submission under EU MDR Article 10.

APPROACH

Athena-generated QMS framework, gap assessment against ISO 13485:2016 + MDSAP requirements.

IMPACT

[Outcome to be captured]

Let's Talk

- 30-minute discovery call — no obligation, no pitch deck
- We will answer one specific regulatory or career question on the call

Logo Usage Guidelines

DO

- Use the primary wordmark (black) on white or light backgrounds
- Use the reversed wordmark (white) on dark or photo backgrounds
- Maintain clear space: 1× the height of the “L” on all sides
- Use the icon mark alone only when brand context is established
- Use Calibri as the sole typeface in all brand materials

DON'T

- Do not stretch, skew, or rotate the mark
- Do not use LM BLUE (#5B7FA6) for the wordmark text — it is always black or white
- Do not place the mark on busy photographic backgrounds
- Do not use fonts other than Calibri in brand materials
- Do not display the mark below 0.75" width in print, or 54px wide on screen

Document Standards

Applies to: Word (.docx), PDF deliverables, coaching reports, client briefs

Review label

"Alpha Phase — Steven Tran Review Required" on all client-facing drafts

The Latitude Standard

01

SPECIFICITY OVER GENERALITY

Every deliverable contains at least one specific, verifiable claim. No unsourced numbers. No vague language.

02

PRECISION OVER VOLUME

One well-reasoned brief outperforms ten generic reports. Fewer pages, more value per page.

03

SOURCED, NOT FABRICATED

All statistics cite a regulatory filing, guidance document, company announcement, or named publication.

04

HUMAN-GATED

No client output ships without Steven Tran's review and approval. AI augments; humans sign.

05

DIGNITY IN ALL COMMUNICATIONS

Clients are partners, not accounts. Competitors are respected, not disparaged.
